

ADVANCED TOWEL DRYER BATHROOM HEATERS

THE BENEFITS OF ATLANTIC RANGE

The Atlantic range of products are all-electric, plug-in or hardwired. They come with wall brackets for easy installation, are splash proof rated to International Standard IP24 and have child safe controls and safe temperatures. All products have time control options and are manufactured in France.

NEFERTITI

Atlantic's Nefertiti is one of the world's most advanced towel dryer/bathroom heaters. It is truly unique because the Nefertiti is available in two formats, either electric or as a combination electric/hydronic system. In addition, there is a 1000 watt room heater with air filter for added warmth and comfort. A thermostat allows you to select your desired bathroom temperature and set drying options for your towels in 1/4hr, 1/2hr, 1hr and 2hr periods. When the Hydronic model is turned off in the warmer months, the towel rail and room heater operate with electricity.

Model	Wattage	Width	Height	Depth	Code
Electric	500	550	1136	137	850005
	750	550	1436	137	850007
Ventilo (with 1000w fan)	500	550	1167	137	850015
	750	550	1467	137	850017
Hydronic Ventilo (with 1000w fan*)	500	550	1167	152	851015
	750	550	1467	152	851017

CHROME

European Design and a brilliant chrome finish makes the Atlantic Chrome a sophisticated accessory for any bathroom. Not only are the towels warm and luxurios, the bathroom is cosy as well. There is a thermostat as well as a two hour push button timer which allows time to dry your towels. This feature saves on running costs. Additionally, extra rails placed close together cut down on drying time without compromising the ease of hanging towels.

Wattage	Width	Height	Depth	Code
300	500	915	85	950103
500	500	1360	85	950105

PLINTH

The Plinth model is an ideal way to warm your bathroom and dry the towels. It is available in a 500 or 1250 Watt unit. Simply fix it to your wall, under your towel rail and plug in to a power point. Features include double insulation, touch safe surface temperatures and a safety cut-out which resets automatically.

Wattage	Width	Height	Depth	Code
500	665	250	94	519507
1250	1185	250	94	519513
